DETECT

CONCEALED WEAPON DETECTION

Evolv Express detects the presence of a concealed weapon on a person entering a stadium.

ANALYZE

FLEEING INDIVIDUAL MONITORED

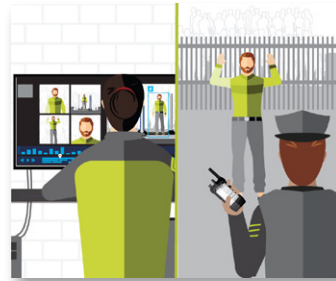

The threat is confirmed by a security operator, who issues an alert to ACC to notify central security operators. Cameras onboard the towers simultaneously stream video to ACC, which is recorded alongside fixed video security feeds for visual context.

COMMUNICATE

RESOURCES DISPATCHED

An alert is automatically issued from ACC to other nearby devices to notify additional security operators of the situation. Suspect's details and location is shared with additional security operators across the stadium.

RESPOND

INCIDENT MANAGED AND REPORTED

The suspect makes a run for it and security operators track their location within the stadium using Appearance Search and are able to apprehend them. The incident is then securely logged with pre-populated fields and relevant data.
